

## **2022-2023 High School Softball Winter League Information**

Following the participation of 16 teams two winters ago and 24 this past winter in our sixth season, we're very pleased to have secured capacity to host up to 28 teams in the 2022 – 2023 season.

Teams participating last season were Amity, Bethel, Brookfield, Cheshire, Danbury, Fairfield Ludlowe, Fairfield Warde, Immaculate (Danbury), Marlboro (NY), Masuk (Monroe), McMahon (Norwalk), New Canaan, New Milford, Newtown, Northern Valley (NJ), Norwalk, Pomperaug, Ridgefield, Shelton, Southington, Staples (Westport), Torrington, Trumbull, and Wolcott

Weather and other conditions permitting, each team will be playing nine regular-season games before participating in one of two 14-team divisions for single-elimination playdowns to crown each division's winter league champion in March just prior to the start of the spring high school season.

**Important Logistics Note:** Teams will be obligated to play at all scheduled times unless alternative mutually-agreed playing times can be arranged. If unable to keep a scheduled commitment, for example due to inclement weather or some similar reason, and no acceptable make-up date can be provided by Dome management, no refund or credit will be made.

Teams interested in joining the league should contact us for more information:
